Commemorations: The Politics of National Identity, 1996

Memory is as central to modern politics as politics is central to modern memory. We are so accustomed to living in a forest of monuments, to having the past represented to us through museums, historic sites, and public sculpture, that we easily lose sight of the recent origins and diverse meanings ...

Commemorations: The Politics of National Identity. Edited

Placing commemorations in their historical settings, the contributors disclose the contested nature of these monuments by showing how groups and individuals struggle to shape the past to their own ends. The volume is introduced by John Gillis's broad overview of the development of public memory in relation to the history of the nation-state.
