Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. Many sociologists aim to conduct research that may be applied directly to ...

A toolbox for analysing political texts. Discourse analysis is a useful tool for studying the political meanings that inform written and spoken text. In other posts, I have provided a quick video introduction to the topic, and have discussed the ideas behind discourse theory, the main questions that students and researchers will likely ask as they set up their discourse analysis project, and ...

Language@Internet , 4 , article 1 (2007) - This article describes a classification scheme for computer-mediated discourse that classifies samples in terms of clusters of features, or "æfacets". The goal of the scheme is to synthesize and articulate aspects of technical and social context that influence discourse usage in CMC environments.
