The Definitive Martial Law Survival Guide

I think it's safe to say with some conviction that in the year of 2012 the concept of survival prepping is NOT an alien one to most Americans.

The Most Often Forgotten Survival Preparations - SHTF Plan

Data collection is the process of gathering and measuring information on targeted variables in an established system, which then enables one to answer relevant questions and evaluate outcomes. Data collection is a component of research in all fields of study including physical and social sciences, humanities, and business. While methods vary by discipline, the emphasis on ensuring accurate and ...

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.
