Financial reporting regulations, ethics and accounting

Financial statements (or financial report) is a formal record of the financial activities and position of a business, person, or other entity.. Relevant financial information is presented in a structured manner and in a form easy to understand. They typically include basic financial statements, accompanied by a management discussion and analysis:. A balance sheet or statement of financial ...

Financial statement - Wikipedia

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations.The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
