The University of Oxford is a collegiate research university in Oxford, England. There is evidence of teaching as far back as 1096, making it the oldest university in the English-speaking world and the world's second-oldest university in continuous operation. It grew rapidly from 1167 when Henry II banned English students from attending the University of Paris.

Weibull analysis is the world's most popular method of analyzing and predicting failures and malfunctions of all types. About 85%-95% of all life data are adequately described with Weibull probability plots. Whereas about 85%-95% of all repair times are adequately described by log normal probability plots. The New Weibull Handbook provides practical tools for analyzing life/repair data.

Human resource management (HRM), the management of work and people towards desired ends, is a fundamental activity in any organization in which human beings are employed. It is not something whose existence needs to be elaborately justified: HRM is an inevitable consequence of starting and growing an organization. This article focuses on the scope of HRM and its major subfields.
