The Modern Corporation and Private Property is a book written by Adolf Berle and Gardiner Means published in 1932 regarding the foundations of United States corporate law. It explores the evolution of big business through a legal and economic lens, and argues that in the modern world those who legally have ownership over companies have been separated from their control.

Property, in the abstract, is what belongs to or with something, whether as an attribute or as a component of said thing. In the context of this article, it is one or more components (rather than attributes), whether physical or incorporeal, of a person's estate; or so belonging to, as in being owned by, a person or jointly a group of people or a legal entity like a corporation or even a society.
