Femininity (also called girlishness, womanliness or womanhood) is a set of attributes, behaviors, and roles generally associated with girls and women. Femininity is partially socially constructed, being made up of both socially-defined and biologically-created factors. This makes it distinct from the definition of the biological female sex, as both males and females can exhibit feminine traits.

Aphroditus (Greek: Ἄφροδίτης, Aphroditos) was a male Aphrodite originating from Amathus on the island of Cyprus and celebrated in Athens in a transvestite rite.. Aphroditus was portrayed as having a female shape and clothing like Aphrodite's but also a phallus, and hence, a male name. This deity would have arrived in Athens from Cyprus in the 4th century BC.
