Levelling (British English) or leveling (American English); is a branch of surveying, the object of which is to establish or verify or measure the height of specified points relative to a datum. It is widely used in cartography to measure geodetic height, and in construction to measure height differences of construction artifacts.

**Levelling - Wikipedia**

We were doing a little cleaning around the office, and realized that we had accumulated quite an assortment of owners manuals for (mostly) discontinued surveying instruments and construction Lasers.
